## ABOUT ME

---

I am currently a junior at Wauconda High School. I hope to pursue a career in veterinary medicine. Growing up around animals, it has been clear that I am ambitious to work in this field. I have a commitment to Joliet, typically every weekend, a sport that has taken over my heart, escaramuza, a horseback drill team on sidesaddle. I also volunteer in my free time at different organizations to helping kids, animals, and families around my community.

---
